

## 2008 PQRI Data Collection Worksheets

2008 PQRI Data Collection Worksheets&ndash; Measure-specific worksheets that walk the user step-by-step through reporting for each measure. These worksheets may be used by the practice on a concurrent basis to collect PQRI data.

- Identify the patients for whom PQRI measures and codes apply.
- Capture clinical information for translation into the administrative claim process.
- Integrate the measures into your practice.
- Improve quality and track reporting at the practice level, by maintaining a copy of the worksheets.

The details of the revisions to the 2008 PQRI data collection worksheets are described in the document entitled "2008 PQRI Participation Tools Release Notes Version 1.5," which is available separately in the "Downloads" section below.
